April,

We are preparing responses to the UDOGM November 25, 2013 comments on the Daneros LM NOI. In response to Comment 22, we prepared the attached Water Quality Sampling Plan for the Daneros Mine. Please let us know if you have any comments or questions about it. We will add the SAP as an attachment to the LM NOI which we hope to send to you early next week.

Thanks,

Andrea

Hi Emily,

I was asked by the operator to review this water quality sampling plan for M/37/0126 prior to incorporation into the LMO that Energy Fuels would like to submit within the next week or so. I will be the only reviewer.

Could you create a task for this?

Thanks,

April

Hi Andrea,

I have just reviewed your sampling plan for the Daneros site. I think the plan is well done and very comprehensive. It addresses my comments in the previous reviews adequately.

The one comment I have is under the Reporting section. I would ask that in addition to providing the lab results as part of annual reporting, that you include a statement that results will be provided to OGM upon request. This way, if an inspector wishes to evaluate the lab data as part of an inspection, it would be made available to them.

Thank you and I apologize for the delay in reviewing this.

April

Hi Emily,

The above email indicates that this task has been reviewed and is completed. Mike is actually the lead on this site.

Thanks,  
April

I've added Mike. A letter needs to be drafted to complete this task.
